English (native)

German (elementary)

## Development Projects

### Meet App, CareerFoundry

March 2023 - April 2023

- Developed progressive web application using React which allows cross-platform and offline usage, displaying lists of events to users by location via Google Calendar API.
- Implemented AWS Lambda functions (OAuth) to authenticate and authorize users.
- Focused on a test-driven approach implementing both TDD and BDD with the help of tools such as Jest, Cucumber and Puppeteer.

### Movie App, CareerFoundry

Feb 2023 - March 2023

- Created database of movie and user information using noSQL model MongoDB, allowing data to be stored and accessed via Mongoose, interacting with a REST API built with Node.js and Express, with Postman utilized for endpoint testing.
- Developed frontend as a Single Page Application using React.js and styled with Bootstrap, providing multiple views displaying movie information to users, including a login and registration view implemented with a JWT token.

## Employment

### EU Planner, Savage X Fenty, Berlin

February 2022 - August 2022

- Improved KPI visibility by setting up EU specific sales and stock data reporting, which lead to better buying decisions, overstock management and positive sales results.
- Helped develop closer working relationship with global team by implementing weekly calls, increasing knowledge sharing which aided decision making and workflow for EU.

### Demand Planner, Mykita GmbH, Berlin

May 2019 - February 2022

- Improved delivery times by identifying and solving supply chain problems, resulting in new process creations which streamlined operations and increased stock availability.
- Helped to enhance quality of new products by evaluating material performance, resulting in less manufacturing problems and achieving the target product launch date.
- Increased productivity by broadening skillset of the team through leading training sessions, which enhanced individual expertise and delivered a higher quality of work.

### Junior Merchandise Planner, Zalando SE, Berlin

April 2017 - April 2019

- Helped time management of buy deadlines by implementing project management boards and reviews, reduced late ordering and improved in season delivery time KPIs.
- Created clear buy targets within strategy planning by providing deep dive analysis on sales and assortment, resulting in efficient spending and higher return on investments.
- Improved KPI forecast accuracy in OTB planning by creating a daily tracking file and making weekly adjustments, reduced discrepancies and provided more precise business projections.

## Education

### Certificate in Full-Stack Web Development CareerFoundry

November 2022 - May 2023

Mastered Javascript by building multiple projects using JQuery, AJAX, React, Node and Express. Developed UI/UX skills as well as a fluency in using Git version control.

### BA (HONS) Fashion Business Glasgow Caledonian University

September 2010 - May 2014

2:1 Honours Degree in Fashion Business specializing in digital design, branding and business management.
